MUHAMMAD ASAD KHAN

CS STUDENT

ABOUT ME

I am a student at the Department of Computer Science UBIT, currently enrolled in my 2nd semester. I have experience working with Python and basic data science tools and aim to explore the networking & cloud computing roadmap.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Department of Computer Science — UBIT, University of Karachi
Expected Graduation : 2028

PROJECTS

AWS EC2 Static Website Deployment

Deployed and hosted a static HTML page on an Amazon EC2 Linux instance. Configured IAM roles, connected S3 storage, and managed resources through AWS CLI.

Python Data Trend Analysis (OWID Dataset)

Processed real-world datasets using Pandas and Matplotlib. Built time-series visualizations and analyzed trends and simple correlations.

CERTIFICATIONS

- Certified Data Scientist - PITP/NED (2025)
- Cloud Computing - PITP/NED (ongoing)

SKILLS

Python
Data Science
AWS (EC2, S3, IAM, CLI)
Version Control
